Aurora—"I personally believe that a serious effort is being made to insert the thin edge of the wedge of communism into our town," Mayor Dr. Crawford Rose told the Aurora Board of Trade meeting this week.

Partial text of Dr. Rose's remarks:

"My attention has been brought to a two column advertisement which appeared in the January 15 issue of the Aurora Banner, signed by and paid for by the United Electrical Workers Union of America, C.I.O. I want you to know that the president of the Canadian section of the United Electrical Union is Clarence Jackson who, before the parliamentary committee on industrial relations at Ottawa in August, 1946, questioned as to his work in Canada during the war, admitted that he was imprisoned by the federal authorities from 1940 to 1942 for his activities as a member of the Communist party in Canada.

"The Globe and Mail, January 20, 1948, says 'The United Electrical Workers Union, whose leadership in Canada is regarded as Communist, has announced, etc., etc.'

"Because I personally believe that a serious effort is being made to insert the thin edge of the wedge of Communism into our town, I accept it as my duty

## Pat Is Snowbound More Than Somewhat

By BOB HENDERSON

Newmarket—Covered all over from head to toe—covered all over with—snow! That's how Pat Murphy, a truck driver for Weston's Bread, finds himself on Wednesday.

Pat is driving peacefully along minding his own business when all of a sudden the truck whirls like a dervish on an icy stretch on the second concession of Whitechurch just below John's farm. Before Pat can even call the leprechauns to help him, he finds that his truck has piled in to the snow at the side of the road. Moreover, when he tries to pull himself out of the snow bank again one of his chains breaks which, you will understand, annoys him no little.

But Pat has a sweet disposition and quickly sees that it is not going to do anybody any good to get irked, especially when he is the only one around at the time. He crawls under the truck to fix the chain which by this time is fouled up more than somewhat, when who should come along but Don

## Born Near Newmarket, W. A. Forth Dies

A veteran of two wars and one of three generations to serve with the York Rangers, W. A. Forth, son of the late Mr. and Mrs. George Forth, died at Christie St. hospital on Saturday. He was born near Newmarket 80 years ago.

Mr. Forth joined the old Grand Trunk Northern Railway as a young man, but left to serve in the Boer War where he rose to become sergeant. On his return to Canada he resumed railroad work as a conductor on the mixed train between Allandale and Gravenhurst. Later he spent several years with the Northwest Mounted Police.

At the outbreak of World War I, Mr. Forth and his only son, Garfield, returned to Newmarket, to join the York Rangers, the regiment with which Mr. Forth's father had served during the Fenian Raids of 1866 on the Niagara Frontier.

After the war Mr. Forth became chief of police at Georgetown and Elmira before taking the position of special York county police constable in charge of the Home Smith property at the Old Mill, Toronto, and in Caledon. He retired in 1940.

Mr. Forth was a Shriner, a member of the Orange Order and a member of the United Brotherhood of Carpenters and Joiners of America. He was a life member of the York Rangers. He was survived by his widow, the former Floss Gibson, and two stepsons, Earl McCann, Toronto, and Max McCann, Ottawa. Funeral services were held on Monday.

## Elect 16 Directors To New B. Of T.

Newmarket—Sixteen directors for the new Board of Trade were elected at an organization meeting in the agricultural board rooms on Tuesday night. About 50 of Newmarket's businessmen, representing every type of business, attended and cast ballots.

Elected to the board of directors were William Geer, J. L. Spillotte, Elton Armstrong, Tom Doyle, K. M. R. Stiver, Aubrey Doane, Elman Campbell, Ronald Walt, Art Lord, James Hope, Johnny Campbell, Jack Luck, Harry Hooker, Del Gibney, Peter Gorman and R. C. Morrison. Others nominated included Harry Goodman, Mike McMorris, George Byers (did not stand), Harry Holmes, Robert McGuire, S. Brookfield, Paul Tobey, Walter Johns (did not stand), John Hines, Alex. Eves (did not stand), D. Kuhms, Henry Moore, Alex. Belugin (did not stand), W. M. Cockburn (did not stand), Aubrey Rowland. There will be a directors' meeting at the agricultural board rooms on Tuesday at 7.30 p.m.

R. C. Morrison, chairman, said the large number present was proof of the desire for a board of trade. He said the old board came to an abrupt end one October night in 1943 when only 12 men turned out to a general meeting. He attributed the collapse of the old board to the prices board's interference.

"In recent weeks The Era and Express has, in its editorial columns, indicated the very apparent need for the re-establishment of the board or a similar organization," he said. "Seven or eight members of the old board met a representative of Canadian Chamber of Commerce on January 8 and at his suggestion, four standing committee have been named for the approval of a general meeting."

The suggested slate was presented but after hearing Trevor H. Hamill, assistant Ontario manager, Canadian Chamber of Commerce, the slate was discarded in favor of the election of a board of directors.

"The usual practice is not to set up definite standing committees at the outset," Mr. Hamill said. "In most communities a nominating committee selects 12 or 15 men to comprise a suggested board of directors (as representative as possible), which if approved at a general meeting, meets and elects from its members the president, the secretary, the treasurer and any other officers. These officers select the committee chairman, with the committees themselves being set up by the directors. It is not necessary for the members of the committees to be directors. However, the main problem tonight is the election of the directors," he said.

Mr. Hamill said Newmarket's new board was part of a growing movement across Canada. "There are now 155 chambers of commerce in Ontario, 484 in Canada," he said. "The average board has 15 directors."

Motions were passed to form a board of trade and to elect 16 directors.

Newmarket—A total of \$2,525.90 was sent from Newmarket to Montreal from the sale of "Gold Bond" lottery tickets over a period of six months, it was learned in magistrate's court on Friday. During the hearing of a charge against Ernest M. Fairley, 21 Queen St. W., of selling illegal lottery tickets, Inspector W. G. Tomlinson of the provincial police anti-gambling squad said that an average of \$420.98 a month was collected from ticket buyers in Newmarket. Magistrate O. S. Hollinrake remanded Fairley for judgment until next week.

In the month of December, no money was won by anyone in Newmarket. Insp. Tomlinson said. In September, two persons received \$50 each, and in August one person won \$100. A total of \$200 was won in these three months while tickets which sold at 50 cents each took in about \$1,262.94 in that period.

The accused told the police that he received a commission of between 25 and 35 percent, varying with the sale of tickets, and Insp. Tomlinson said that figures showed that he averaged \$1,820.36 in six months ending December 30.

Fairley had another charge laid against him of selling illegal lottery tickets on "The Favorite Sportsman's Hockey Score." He had told the police that he had been selling these tickets for 20 years and received a 25 percent commission on their sale.

## Fire Sweeps Interior Of Davis' Garage

Aurora—Fire caused by a back-fire as a gasoline pipe line was being cleaned out just about destroyed Davis' Garage, Yonge St., on Saturday afternoon. The wooden structure, one of the oldest in the business section, suffered several thousand dollars damage as the interior was gutted by the flames. Dense smoke caused considerable difficulty in fighting the fire which was largely confined to inside the building. All cars on the premises were removed and were unhurt, as was most of the equipment and stock in the building, although some of it was damaged by smoke and water. Ontario Motor Vehicle records on the premises escaped unharmed.

## County Councillors Moot Pay Increase

The question of increased pay and mileage allowances for York county council members has been referred to the county commissioners and a special committee of Reeve George Mitchell, North York, Deputy-Reeve Harry Corner, Aurora, and Deputy-Reeve Alex Bissett, Etobicoke.

Introduced by Deputy-Reeve Corner, the question was the subject of hot debate. Mr. Corner proposed that the present remuneration of \$7 a day for councillors be increased to \$8 and that "one-way" gasoline mileage allowance be increased to ten cents a "round trip" basis. At present members are only allowed the gasoline mileage for one day of the sessions.

Chief argument in favor of the increase was the increased cost of living, loss of remuneration by those attending council and by the fact that the present rate had been in effect for some years. Opposed to the motion were those who felt it was a bad example and that a raise would mean the rate would be retained even after living costs decreased and wages fell. Many felt that the suggested increase, the maximum under present municipal law, was not worth bothering about. Still others thought of a possible income tax results. A report by the committee is expected this session which will likely end next month.

## Blame Lax Laws For Fever Spread

Newmarket—Quarantine regulations of the provincial department of health received considerable criticism from both Dr. L. W. Dales, medical officer of health for Newmarket, and Dr. J. Gordon Cook, who was re-elected chairman of the Newmarket board of health, on Tuesday morning. Dr. Dales said that in many cases severe complications had developed in several cases of scarlet fever during the recent epidemic and that some of these might have been avoided if the regulations had been more stringent. Dr. Cook agreed.

Dr. Dales said no new cases of scarlet fever had been reported for several days and that up to that time there had been no fatalities from the disease. He credited the toxoid clinic with much of the success in gaining control of the epidemic, but he added that crowded housing conditions in the town had probably contributed largely to its spread. "I hope that we may some time have an addition to the hospital to provide an isolation wing. I think we might have achieved control much more quickly if we had been able to isolate those known to have the disease," he said.

Dr. Dales said that "a couple" of cases of measles had been reported, but there was nothing to indicate an epidemic such as that which took place in Toronto. At the request of Mayor Joseph Vale he said he would check on the conditions prevailing at the Newmarket memorial arena, which had been described as "filthy".

## Make Presentation To 'Joe' McCulley

Newmarket—Joseph "Joe" McCulley, former headmaster of Pickering College and now deputy commissioner of den penitentiaries, was presented with a club bag and travelling kit at a dinner of friends and municipal officers at the King George hotel Friday night. Close to 100 were present. Sharing the head table with Chairman George M. Byers were members of the town council, Lex. Mackenzie, M.P.P., Father T. J. McCabe and Rev. Henry Cotton.

Mr. McCulley described his first visit to Newmarket when the college building, only recently evacuated as a casualty hospital, stood on a "barren hilltop." Since then, Mr. McCulley said, the school has undergone considerable physical change, including a tree-planting program that has made the hilltop the pleasant place it is.

He likened the school to the equivalent of a small industry, pointing out that many permanent staff members had settled in Newmarket, and the heavy expenditure of students from year to year brought revenue to town businessmen. "The town is inclined to forget the asset Pickering College is," he said. He referred to teaching innovations introduced at Pickering College which at the time were looked upon with disapproval but which have since become accepted teaching practices.

He described his present work as rehabilitation among prisoners in the federal penitentiaries along the lines indicated by a pre-war Royal Commission report, the Archambault Report. He said a program of education had been drawn up and anticipated an early announcement from Ottawa on it.

Mr. McCulley was introduced by Mayor Joseph Vale after

## What Is Garbage?

Newmarket—What constitutes garbage? The problem was brought before council last week when Councillor Tom Birrell reported on several garbage collection problems confronting Newmarket's collector, F. Johnston.

"Three of the more pressing of these problems are the excessive amounts of garbage which are being continually put out in certain places, the type of waste being put out by some people as garbage and the fact that some people refuse to bring their garbage to the roadway, where it should be," Councillor Birrell said. "In some places he has been picking up a whole truck load of garbage twice a week. In others people have been cleaning out their backyards and basements and putting the stuff they have collected for years out for collection. The committee is asking for a by-law defining garbage and placing a limit on the amount of each pick-up. As things are now the amount paid in some places does not begin to cover the service received."

Councillor Frank Bowser said that when the amounts were set originally for garbage collection, the council was just setting a level from which to work. He said a by-law was not necessary to cover those particular cases where the charge should be more.

Councillor Birrell said that in

some cases entire furnaces were put out for collection and he suggested a limit of six bushels per pick-up. Mayor Vale said that in the case of houses the purpose would be served if "garbage" were definitely limited to garbage and ashes. Councillor Bowser objected on the grounds that furnaces, stove pipes, etc., were only rarely put out and should be accepted when they are. Councillor Budd agreed. He said Mr. Johnston probably receives revenue from such salvage in any case.

Councillor Birrell explained that Mr. Johnston was not complaining because of the amount of money being received for large pick-ups, because he is on a contract basis anyway. "He is only bringing to our attention the fact that we should get more revenue from these pick-ups," he said. Engineer Denne Bosworth concurred. "Mr. Johnston is not concerned so much about the quantity of garbage in the pick-ups as about their lack of accessibility and the mess they are in in many cases, and the fact that it sometimes takes two or three men to lift some containers to the truck. If the proposed by-law limited the garbage to containers or bundles which could be handled by one man he would be happy."

A motion to pass such a by-law was passed.

## COAL-FED BACON ON THE HOOF

Did you know that hogs thrive on coal? Ross Bennett, of Pueblo, Calif., owner of the hogs being fed here by Miss Marie Massarotti, says that coal-and-rock-salt is an excellent conditioner for hogs. He feeds his 70 porkers a ton of slack coal a month and 100 pounds of rock salt. He gets the coal at \$5 a ton, which is also cheaper than corn or grain. Because the coal keeps the hogs in top condition, says Bennett, they derive more good from what they eat and thus require much less corn. They seem to be enjoying the shovel of coal donated by Miss Massarotti here.

**Charge Dismissed**  
Newmarket — A charge of assault on Mrs. Katie Mergyl, R. R. 2, Newmarket, laid against Frank Vogel, was dismissed in Magistrate O. S. Hollinrake said that it was a case of straight contradiction, and that someone was lying. Evidence from both accused and complainant revealed that the accused had gone to the complainant's home to settle some bills he owed Mrs. Mergyl's husband. The complainant said that Vogel had become angry and struck her twice during their conversation and that no one was with him. The accused said that he had not touched her and that his wife was with him. The wife of the accused testified that she had been with her husband at the time and the husband of the complainant testified that he had seen the accused leave the house alone.

Henry King, North Gwillimbury township, was given a suspended sentence and put on probation for two years. He said he took a mower from an open field and sold it as scrap but said that he thought that no one owned it. A charge of theft was laid against both King and Noble Sedore, but Sedore, who assisted King and received half the money after the mower was sold, said that he did not know it was stolen. The charge against Sedore was dismissed.

**40-Student Average**  
Newmarket — With continued success, the York county short course in agriculture now in session has completed the third week of the month course with an average attendance each day of 40 students. The highlight and perhaps busiest day of the week was last Tuesday when the entire group toured some of the larger farms in the southern section of the county observing various phases of farming and judging many types of livestock. A particularly interesting afternoon was supplied by Dr. F. W. Schofield of the Ontario Veterinary College speaking to the group on diseases of livestock. Another period on artificial insemination spread considerable light on this comparatively new and practical method of breeding.

Class elections were held early in the week and Clare Eves of Queensville was the popular choice for president. Dave Petrie of Sharon was elected secretary. These two boys took part in Jack McPherson's farm program over CBL on Thursday presenting in an interview the various aspects of the short course.

Aside from regular class work in the final week, including a potato culture talk by Dick Goodin of the department of agriculture, Tuesday was an educational day devoted to a bus trip to Toronto where the group visited the legislature, the museum and plants engaged in the marketing and processing of farm products. The course will conclude on Friday with an all-day tour through the packing plant where among other things the boys will judge hogs on the hoof and later compare these animals on the rail.

The conclusion of this course will complete the 37th annual short course to be held in York county by that branch of the Ontario department of agriculture.

## Houses — But Not On Fair Grounds

The hard facts of economics appear to have con-  
spired to make the fairgrounds the only acceptable site  
for the crown housing project. Our understanding of  
the course of negotiations so far is that the cost of pro-  
viding municipal services to any other site would exceed the  
\$600 set as a maximum for each house by the crown corporation.  
If the cost exceeds this amount, it is contended that the houses  
cease to be in the low-rental category.

The fairgrounds have been so little used since the war that  
it is doubtful that the sportsmen are going to be greatly in-  
convenienced by its use as a housing site. The existence of  
municipal services undoubtedly lowers the cost per house. Yet the  
use of the fairgrounds for houses is contrary to all common  
sense. It suggests a policy of accomplishing the growth of  
Newmarket, not in a planned and orderly manner with the  
provision of ample living space, not with the development of  
new residential areas which in turn will help create new  
business sites, but by jamming homes into every nook and cran-  
ny within the municipal boundaries to the complete disregard  
of the needs of those who will live in them.

The town council cannot be blamed for the difficult choice  
with which they are faced. As near as can be discovered, the  
terms under which the houses are built leave no alternative.  
Yet surely a way can be found to avoid using the one large  
playground in Newmarket, and the only one on the east side  
of town, for homes—particularly when the new homes will  
make a playground all the more urgent in that area.

Would it not be possible for the town to assume the cost  
above that of \$600 per home if a more agreeable site might be  
laid out on the outskirts of town? Would it not be feasible,  
since the choice is being forced on the town, to embark on a  
large scale development of new subdivisions on the outside  
of the present boundaries. The sale of lots apart from those  
needed for crown housing would help reduce the cost. The  
strong demand for building sites at the present time and their  
complete lack within the town limits adds its weight to this  
view.

At the present time, the council faces a decision on the  
memorial site property which would involve an expenditure of  
around \$30,000. Might it not be more to the point if that money  
was spent in providing suitable building sites for veterans'  
housing? If usefulness is the criterion of memorials, houses  
should rank at the top of the list.

As it stands now, the town council has before it a notice  
of a motion that the fairgrounds be used as a site for the  
crown houses. Before the motion is debated, members of the  
council will have ample time to acquaint themselves with the  
possibilities of opening new sites on the terms mentioned  
above. The demand for the crown houses is great and any de-  
lay may likely cause hardship. But to accept the fairgrounds  
as the only site is to add to the town's grief in the future.  
Sooner or later, the areas around Newmarket must be opened  
up. Why not now? It would be far better to face the cost of  
opening up new residential areas when there is a demand for  
lots, to pay the extra cost on the crown houses, than to con-  
tinue to retard the growth of Newmarket through lack of space.

## Just Who Does Profit?

With all the charge and counter-charge as to who  
gets the lion's share of the consumer's dollar, the read-  
ing public might be excused if they were to raise an eye-  
brow at the farmer's tale of his financial woes. To  
correct any impression that the farmer profits unduly from  
recent increases, we offer a few figures gathered by Mr. W. E.  
Tummon, secretary of the Ontario Hog Producers' Association  
and Marketing Board.

Allowing 60 cents an hour for labor and figuring in the  
costs depreciation, insurance, interest and share of general  
overhead, Mr. Tummon finds that on a 200-lb. A grade hog,  
the farmer clears \$2.95 of which \$2 is government premium.  
On a 200-lb. B1 hog, the farmer clears \$1.35 of which \$1 is  
government premium.

Mr. Tummon figures a farmer, after spending six months  
growing the hog, will show a profit of one and a half cents  
a pound on a grade A hog, and one-third cent a pound on a  
grade B1 hog.

Mr. Tummon quoted these figures in reply to a statement  
made to the press recently by Mr. N. D. Roose, president of  
the Toronto Retail Butchers' Association, that at present,  
butchers are buying bacon from the wholesalers at 69 cents  
and selling it at 85 cents for a gross profit of 16 cents a pound.  
Before the increase, butchers were buying at 55 cents a pound  
and selling at 78 cents a pound for a profit of 23 cents.

Mr. Tummon compares the farmer's profit with that of  
the butchers and observes that "we farmers cannot feel very  
sorry for Mr. Roose." The latter statement is not fair since  
out of Mr. Roose's 16-cent profit he must meet his store rent,  
wages, etc. But the point is well made that the farmer's profit  
on a 200-lb. hog can hardly rank him in the moneyed class.

If the farmer's profit is so small and if the butcher is cut-  
ting down his gross profit, where is the difference between the  
old and new prices going to? Perhaps it was with this ques-  
tion in mind that Mr. Tummon called for an immediate inves-  
tigation into the whole price question.

## 'Aid' Campaigns Lead The Way

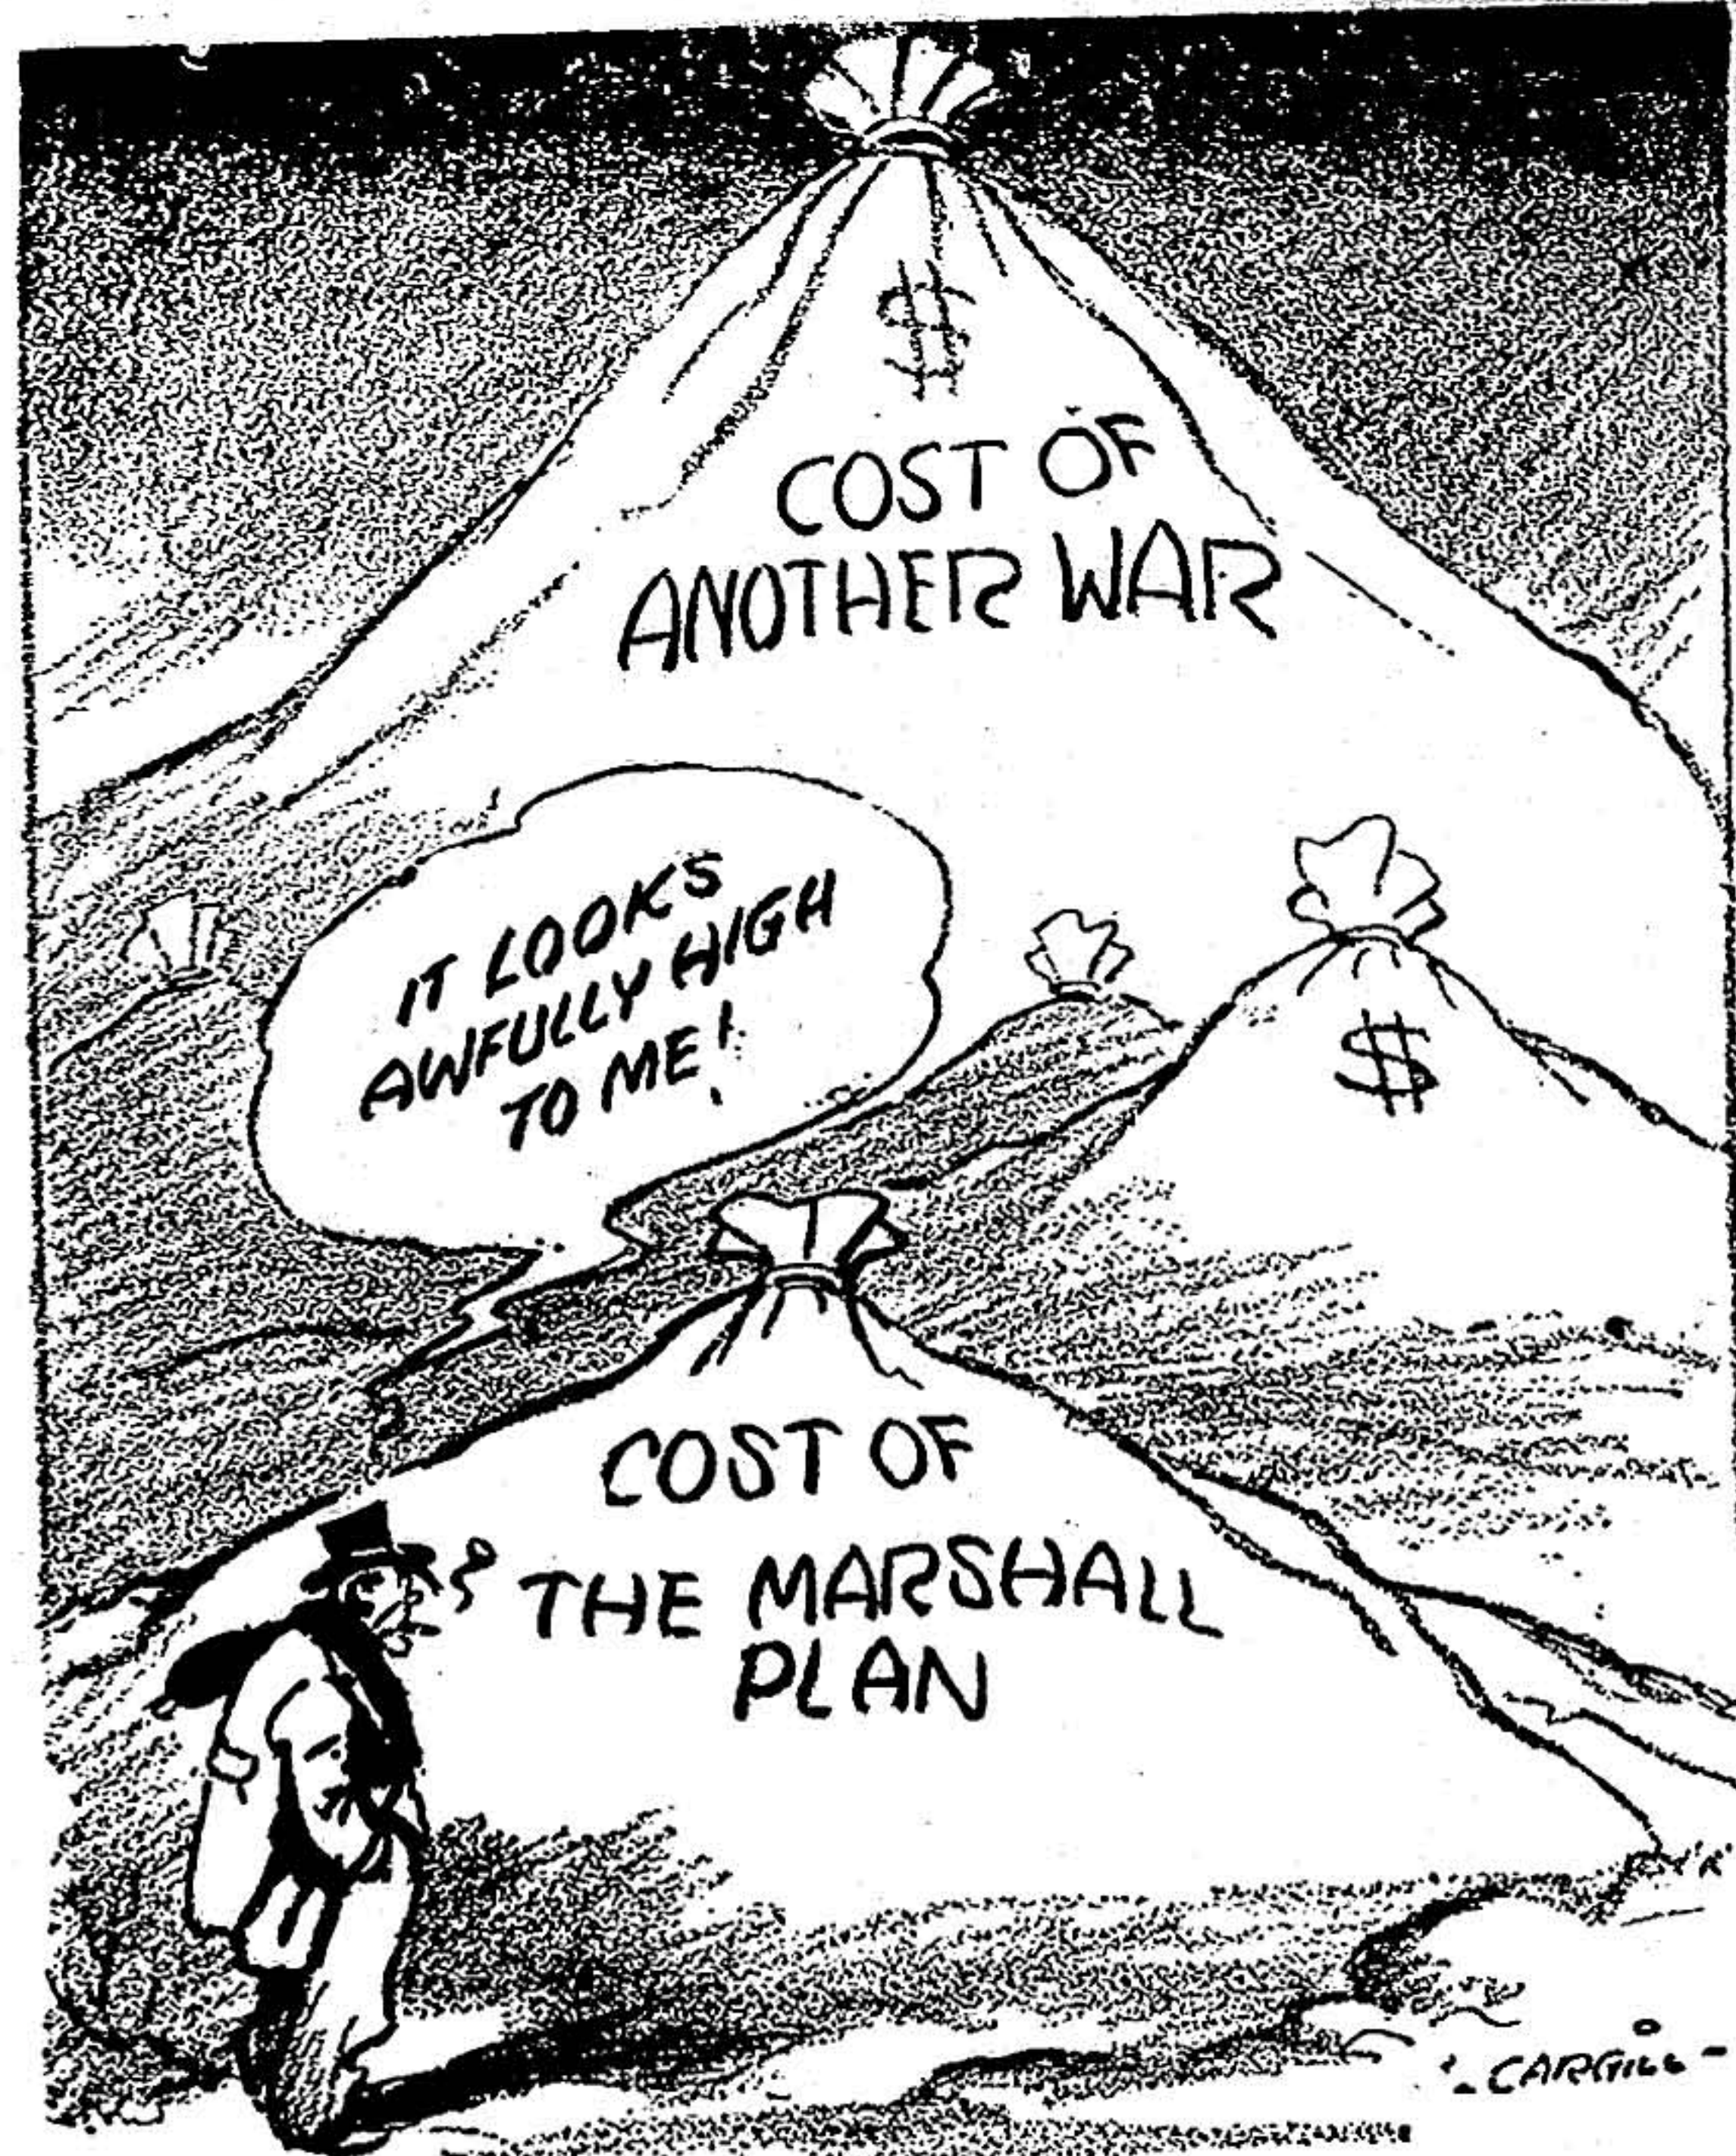

Mr. H. J. Luck, chairman of the Newmarket Aid to  
Britain campaign, and his many co-workers have  
brought credit to Newmarket in a manner which will  
warm the hearts of those who have contributed in the  
many campaigns to aid others less fortunate. The Newmarket  
campaign just closed is being duplicated throughout the province  
at an early date and the general pattern for the collection  
of used articles of clothing, food and money in Newmarket is  
being followed in other centres.

Newmarket was considered to have led the way in so many  
phases of these campaigns that Mr. Luck and Mrs. V. A. Seldon  
were asked to attend a meeting in the office of Hon. Russell  
T. Kelley, minister for health, under whose general supervision  
Ontario campaigns are arranged, to explain Newmarket's  
methods to others. Newmarket's prominence in these cam-  
paigns is doubly a source of pride when it is remembered to  
the extent that others have benefited.

## Houses Should Take Preference

Tonight the Newmarket town council will decide whether  
or not to proceed with the expropriation of the land for the  
proposed memorial site. Two questions are involved: Can the  
town afford to spend the \$30,000 or more required to purchase  
the land in view of other heavy expenditures, including the  
possibility of a heavy cost on the crown corporation housing  
project, and is the choice of site in keeping with the principles  
of sound municipal planning?

When the memorial was first suggested, we urged a strong  
vote in its favor in the belief that it would lead to the provision  
of a useful municipal centre which would replace the  
town hall. Since then, the crown housing project has been  
broached with its attendant difficulties. In our opinion, the  
money spent on the memorial site at this time would be better  
used if it were applied to the development of new sub-  
divisions where crown houses for veterans might be built with  
the town assuming the difference in cost beyond the \$600 per  
home maximum.

## Cat Nips

BY GINGER

Can you see "Ginger" in  
lights? That's where I'm going  
to be. "Ginger" stars in forth-  
coming play, "A Bargain's a Bar-  
gain." That's me. The New-  
market dramatic club is present-  
ing a couple of one-act plays  
next month and I have been  
pressed to take a part in "A Bar-  
gain's a Bargain." Naturally, I  
declined at first but since there  
were so few capable of portray-  
ing this particular character, I  
accepted, with the provision that  
I would have proper billing in  
recognition of my talents.

I am warning all at this time  
that from now on, I'm going to  
be pretty touchy. Anybody that  
knows anything about drama  
knows that you've gotta be a  
sensitive type. We dramatists  
are not ordinary individuals,  
we're artists and we've gotta  
keep on a par with guys like  
Shakespeare, n' Socrates and Ed-  
die Guest. I may be known as  
"Ginger, the flaming career  
cat." Most of these Hollywood  
actors get names like "the  
Voice" or "the Look." It's quite  
possible that I'll be called "the  
Whisker" or "the Mew" after  
my public has had time to real-  
ize what an impression I'll make  
on box office sales.

Trodding the boards is a risky  
business, though. Look at what  
happened to John Barrymore—  
all those wives—ugh. But that's  
just part of the game and the  
price us stars have got to pay  
for recognition. Who knows, I  
might get to Hollywood, star in  
those Tom and Jerry cartoons,  
die, and then maybe Gene  
Fowler will write a biography  
on me. Anyway, for the time  
being, I can be seen behind the  
old time lamps at the town hall.

Who am I to argue about the  
difference in the mental capacity  
of cat and dog? Frankly, I  
don't give a hoot. Nevertheless  
the question arose last week  
when a friend of mine told me  
that his wife was baffled about  
the impression created by this  
column. She harbors a nut with  
a cluttered family back-  
ground that carries shades of  
Scotland, if I recall it correctly.  
Seems to me it chased me up a  
hydro pole once.

Anyway this lady wonders  
how a cat can write a column  
with such intelligence. That's  
what she said, "intelligence."  
(Thank you for the compliment,

"A cat may look at a king,"  
said Alice. "I've read that in  
some book but I don't remember  
where."—Lewis Carroll.

Mrs. G.) Well, all I can say is  
that the column is here for you  
to read and I write it. You can  
draw your own conclusions from  
the impressions you get.  
Friend says she imagines her  
pooch has the edge on cats in  
intelligence. "My dog asks for  
his food when he wants it. He  
has an unbelievable superiority  
in intelligence over any other  
animal," she is said to have said.  
To that I reply: Dear madam, I  
am quite prepared to accept the  
fact that you have an intelligent  
dog. I am not going to argue,  
but I should be only too happy to  
sacrifice a couple of column  
inches if your brain child would  
send in a bit of prose or a smat-  
tering of verse to display this  
genius.

Maggie and the kids are three  
pals of mine. Maggie is a part-  
collie dog and the kids are two  
children, Mary and Hugh. They  
live upstairs over the office and  
their old man's name is Mike.  
Mike is a good friend of mine  
because he lets me stay at his  
apartment on weekends. Maybe  
I should say Mike's wife lets  
me stay at the apartment. I like  
Mrs. Mike. She is nuts about  
cats and particularly nuts about  
cat columnists, especially me.

Haven't been to Mike's since  
before I got sick, so I think I'll  
drop up this weekend. Just  
thought I would mention it so it  
won't be necessary to put it in  
the social column.

Few Canadians questioned by  
The Financial Post believe that  
prices have yet reached their peak,  
unless government controls are  
restored. Several replied with a  
candid "don't know," but more de-  
finitely predicted higher levels.  
Not all who took the latter view,  
agreed on the need, or desirability,  
of renewing controls; some urged  
such a step, while others contended  
that increased production,  
which would bridge the gap be-  
tween demand and supply, was the  
answer.

A young woman stalled her car  
at a traffic light. She stamped  
on the starter, tried again, choked  
her engines, while behind her an  
impatient motorist honked his  
horn steadily. Finally she got  
out and walked back.  
"I'm awfully sorry, but I don't  
seem to be able to start my car,"  
she told the driver of the other  
car pleasantly. "If you'll go up  
there and start it for me, I'll stay  
here and lean on your horn."

## Gleanings From Weekly Press

Homely items around the  
country: At Melfort, Sask., they  
have a beef curling rink (gk) made  
up of Sid Moore, 208 lbs.; Tom  
McCosh 240; Stan Rupert, 240  
and Roy Monsees, 260 . . .

At Melfort, Sask., Art Williams  
couldn't understand why his cow  
was drying up, until he apprehend-  
ed two of his pigs "milking" her . . .  
The Carleton Place Canadian has  
an obituary for Teddy, a little  
cocker spaniel, who had the en-  
viable record of having re-  
trieved over 1,000 golf balls dur-  
ing its three years of life . . .

records at Brooks, Alta., at Ole  
Sidorchuk's farm auction; gross  
take, \$12,000; a tractor bought for  
\$1,200 new brought \$3,000; an old  
manure spreader \$280 . . . The  
Calgary Herald morbidly editor-  
ializes that under the present in-  
come tax system in Canada it  
doesn't pay to be productive . . .  
which cannot be remedied (evas-  
ions) by putting people in jail

Donald Kupka, Bienfait, Sask.,  
found a gopher on top of the  
snow on the prairie, put it in  
the back seat of his car, came  
to town—on arrival found it had  
eaten three large holes in the up-  
holstery, disappeared.

The principle of fully inform-  
ing the people concerning im-  
portant departures from estab-  
lished practice in the conduct of  
civil administration is sound  
and a safe one to follow, claims  
the Huntsville, Ont., Forester.  
"If new principles are to be in-  
troduced, radically affecting his  
personal interests, he becomes a  
convert to its merits only  
through a full discussion of its  
purposes and he wants the right  
to reject it, its appeal is unim-  
pressive."

The Hanover, Ont., Post gives  
some sound advice, thus:

"Some of us have been so eager  
in our fight for democracy  
that we have been ready to still  
every adverse voice, forgetting  
that nothing lives in a vacuum.  
No cause that cannot be defended  
is worth defending. We have  
sometimes been so conscious of  
the rights of labor that we over-  
looked the one fact that would  
make those rights actual. And  
that is that these rights must  
come from those who benefit  
from the effort of labor and that  
the quality of that effort and of  
the integrity and the responsibil-  
ity towards it alone make those  
rights secure."

## A Bit of Fun

An Indian once thought he had  
a perfect memory, and decided to  
make a deal with the devil. An  
agreement was reached whereby  
the Indian could have anything  
on earth he wanted if he could  
prove his case. If not, the devil  
would claim his soul. The devil  
asked: "Do you like eggs?"

"Truthfully, the Indian answered  
"Yes."  
Seventy years later there was  
a big pow-wow of all chiefs. The  
devil appeared in tribal costume,  
approached the Indian, extended  
his right palm in greeting and  
said, "How?"

"Fried," answered the Indian.  
Woman: "I'm not prejudiced at  
all. I'm going with a perfectly  
open and unbiased mind to listen  
to what I'm convinced is pure  
rubbish."

## On Second Thought

By The Editor

The members of the Newmar-  
ket Lions club must have very  
patient wives. Judging from the  
chosen few heard on Monday  
night in a liars' contest, the boys  
have an infinite capacity for  
imaginative yarns. If they can  
respond so well in a friendly  
bout, imagine their inventive  
talent at 2 o'clock in the morn-  
ing. Suffice to say that the  
tales told on Monday night  
rivaled the fabulous story of  
the pool champ who knocked a  
cue ball out from under a fly so  
fast that the fly fell onto the  
table and broke his back, or the  
woodsman who chopped through  
a tree in the middle of a dense  
bush. The tree wouldn't fall  
and when he returned to the  
spot ten years later, he found the  
stump had rotted away but the  
tree was still standing.

Fred Hall won the first prize  
with a rip-roaring tale of how  
he captured a unicorn. The  
unicorn is that creature with a  
horn in the centre of his head  
who shares our coat of arms  
with the lion. Fred said that he  
met the beast in the middle of a  
forest and was frightened half  
out of his wits. He ran and the  
unicorn ran after him. In the  
midst of his flight, Fred sighted  
a huge beech tree. He ducked  
behind it and the unicorn, un-  
able to swerve, rammed head on,  
his horn coming through the  
other side of the trunk. Like a  
flash, Fred pulled a nut from his  
pocket, screwed it on the horn  
of the beast, bolting it securely  
to the tree.

Fred won a huge cigar for his  
effort but shortly after lighting  
it, slipped from the room.

Alex Eves won the judges' nod  
for the second prize after an ac-  
count of his meeting with a  
"mighty man." McGrath, the  
famous Irish wrestler. Alex's  
account, with modifications, is as  
follows: In his younger days,  
Alex was a mighty wrestler and  
after winning the North Ameri-  
can championship, sought new  
fields to conquer in Ireland.  
There in the land of the green,  
after numerous tribulations, he  
finally met with McGrath, and a  
bout was arranged. For his  
trump card, Alex had learned  
that McGrath was particularly  
vulnerable to being bitten on a  
certain part of his anatomy.

According to Alex, the bout  
proceeded with each contestant  
evenly matched until midway  
through when, without warn-  
ing, Alex collapsed on the can-  
vas and lost the match by de-  
fault. He explained to his man-  
ager later that, in the tangle of  
arms and legs, he had bit him-  
self on that same vulnerable  
spot, mistaking it for McGrath  
in the mix-up.

We liked Jay Jefferson's story  
of the con hunt, how he had  
found 99 coons hidden in an old  
barnwood tree in King township.  
"Why not say there were 100  
coons?" asked a friend. "And  
make a liar of myself for one  
cent?" responded Honest Jay  
indignantly.

Bert Morrison contributed his  
share to the night's fun with the  
story of the hunter, tentatively  
identified as Walter Eves, who  
loaded his gun with rock salt as  
well as lead "because he some-  
times shot a deer so far away  
that without the salt, the meat  
would spoil before the hunter  
had reached it."

Ken Mount's story also had a  
humorous flavor. Running out of  
ammunition, Ken used acorns  
and though no duck fell before  
his gun, he noticed that a num-  
ber of ducks the following year  
had trees growing from their  
backs.

Bert Budd couldn't resist mak-  
ing the grand old game of bowls  
the setting for his story of how  
while bowling on a frozen lake  
out in Winnipeg, he had put so  
much twist to the bowl that the  
heat it generated burnt through  
the ice and the bowl dropped in-  
to the icy waters where it was  
gulped down by a fish later  
caught by Bert himself.  
All in all, it was a grand night  
of fun and while words can't  
possibly tell the stories as the  
tellers themselves with gesture  
and acting, enough is here to as-  
sure Newmarket of the high  
quality of its liars. Let's have  
another night like this.

Villagers in Wales feared they  
were being haunted by shades of  
the Welsh equivalent of Casey  
Jones. The puffing of trains and  
the sound of their whistles rang  
out over the lonely Welsh coun-  
tryside miles from the nearest  
railway. It seems the BBC  
broadcasting studio serving  
Wales was near a railway track  
and the activities of the trains  
were picked up by the micro-  
phone and broadcast with the  
news.

Two hunters had a rather em-  
barrassing experience recently.  
Out after turkey, one of the pair  
gave a turkey call that was so  
convincing the other unloaded a  
charge of buckshot into him.  
The Toronto Star suggests the  
incident to be one of mutual sat-  
isfaction. One hunter could take  
pride in the excellence of his  
turkey call; the other in the ac-  
curacy of his marksmanship. We  
suppose the turkeys enjoyed it  
too.

"Frowning Deer Raid Holly-  
wood" says a headline. Where  
there are "dears," can wolves be  
far behind?

## From the BACK PAGES

From The Era and Express files,  
February 2, 1923  
Mrs. John Morston, Newmar-  
ket, spent Sunday in Toronto  
with Rev. and Mrs. W. R. Bark-  
er.

A team of Newmarket curlers  
went to Barrie on Monday night  
and won its first game from  
Bradford.

Mrs. J. R. Teasdale and chil-  
dren left last week for her home  
in Kearney after a couple of  
months' visit with her mother,  
Mrs. J. G. Muir.

Master Merlyn Prosser spent  
Saturday and Sunday in Toronto  
with his cousin, Dr. E. Mumford,  
and attended the hockey game at  
the arena on Saturday night.

Miss May Willis, Winnipeg, is  
spending a week with her aunt,  
Mrs. Norman Hueston. She re-  
ports that it was cold in the west  
when she left. This is her first  
visit to the east.

Mr. and Mrs. R. H. Belfry  
spent Saturday afternoon and  
evening with Mr. and Mrs. James  
Brothers, Aurora, where they  
had the pleasure of meeting Mrs.  
Acton, Chesley, who is visiting  
her sister for a week. Miss Ber-  
tha Weddel, Toronto, was also  
there for the weekend.

We are pleased to note that  
Mr. B. Stanley Ross, an old King  
boy and brother of Mr. J. B.  
King, has been elected alderman  
for the city of New Westminster,  
B.C., for 1923. Mr. Ross did not  
enter the field until two and a  
half days before polling day.  
There were 15 candidates run-  
ning with seven to be elected.  
We congratulate Mr. Ross on his  
success.

Very good market last Satur-  
day morning and not much  
change in prices, which were as  
follows: butter, 35 cents to 38  
cents lb.; new laid eggs from 40  
to 45 cents a dozen; dressed  
chickens 25 to 28 cents a lb.;  
dressed ducks 30 to 32 cents a lb.;  
apples 40 and 50 cents a basket  
according to variety.

Congratulations are being  
showered upon R. W. Stewart,  
one of Newmarket's poultry  
fanciers, who won several prizes  
for his exhibit of Rhode Island  
Reds at the Ottawa exhibition.  
Mr. Stewart carried off first  
prize for cocks, second and third  
for hens, first and second for  
cockerels, first, second and third  
for pullets, a silver cup for the  
best cockerel and pullet and  
special prizes for the best male  
and female.

Mr. John Brimmon, Jr., had  
quite an experience the other  
evening. His horse slipped and  
fell on Eagle St. and John had  
to ask a passing farmer's aid to  
straighten out the tangle.

On The Newmarket markets  
this week butter sold at 18 cents  
a lb., eggs 23 cents a doz., po-  
tatoes 50 cents a bag and chick-  
ens sold at 45 cents a pair.

The many friends of Mr. John  
Rogers, Yonge St., will regret to  
learn that he has been very sick.  
The nomination of candidates  
to fill the vacancy in the town  
council, owing to the resignation  
of Mr. Wythe, took place in the  
town hall Friday evening. Mr.  
A. I. Hollingshead nominated J.  
E. Hughes and the nomination  
was seconded by Mr. Albert  
Bogart. He was elected by accla-  
mation.

### THE CURE FOR HIGH PRICES

Montreal Star

The idea behind letting prices rise is that, if you keep  
production profitable, more people will produce, there will be  
more goods to be sold and finally supply equals demand—  
or perhaps exceeds it a little—and prices level off and drop  
a bit.

If you just stop letting prices rise at this moment, you  
won't get to the later stage at all. Goods would continue to be  
scarce. If they stay scarce long enough, your price controls  
break down, for people cheat in order to get what they want.  
They go into the black market and chisel.

You may say that, if prices keep going up, you can't blame  
anyone for wanting more wages. That is right. You may say  
that, if wages keep going up, prices are also going to get up.  
They keep chasing each other into the clouds. There's no end  
of it. That is right too, but only up to a point. If production  
is increased as wages go up, or a little more, the time comes  
reasonably fast when production overhauls demand. The situ-  
ation then levels out.

What we are going through now is the middle period,  
when we have not yet got the production we need to meet  
demand. The answer is not to slap on the controls again.  
The answer is to produce more and more and that can only  
be done when it is profitable to labor and management alike  
to turn out more goods.

There is a big difference between that word "profitable"  
and profiteering. Nobody approves of the latter except the  
greedy handful of people involved. But they get looked after  
in due time. Remember what happened to the man who killed  
the goose who laid the golden eggs.

**ST. PAUL'S CHURCH**

Newmarket—The annual ves-  
try meeting of St. Paul's church  
was held yesterday evening in  
the parish hall. The Girls' Aux-  
iliary has decided to make Mon-  
day the regular night for its  
meetings from 7 to 8 p.m. All  
girls of the parish are cordially  
invited to attend. Mrs. Cudmore,  
Bolton Ave., is in charge. The  
Girl Guides and Brownies meet  
every Wednesday from 6.30 to 8  
in the parish hall.

The church furnace has now  
been completely installed and  
tested with satisfactory results.  
So from now on services will be  
held once again in the church.  
For three months services have  
been held in the parish hall while  
the new furnace was being in-  
stalled.

The Woman's Auxiliary is  
preparing for the World Day of  
Prayer on Friday, Feb. 13, to be  
held this year in the Friends' Day  
meeting house at 3 p.m. The  
theme this year is The Lord's  
Prayer. The service is prepared  
by members of the World Day of  
Prayer committee of the United  
States of America.

**STILL AT COUNCIL**

Newmarket—Reeve Arthur D.  
Evans and Deputy-Reeve J. L.  
Spillie have been attending coun-  
cil again this week. The session  
will likely extend into next  
week because of the press of business.

**EVERYBODY'S  
BUSINESS**

Curiosity may have killed the  
cat, but it has led many men to  
do great things.

Because Dr. Lister wondered  
why so many patients died after  
operations, he discovered that germs  
cause infection, and developed  
modern antiseptic practices. For  
our modern lighting we can thank  
Edison's curiosity. Again, curi-  
osity about what and how people  
buy, led Woolworth to develop a  
new kind of store which grew into  
a multi-million dollar chain.

You may make some prob-  
able discoveries by asking your-  
self (and others) questions about  
everything from mousetraps to  
mousetraps. Knowledge is Power.  
The more you learn, provided you  
have the ability to use such knowl-  
edge, increases your value to your  
employer and may start you on a  
new and exciting career.

And don't forget to be curi-  
ous about people, too. A study of  
their tastes, wants, behaviour and  
opinions can be equally rewarding.

Are you curious about what  
happens to life insurance dollars?  
Savings effected by Canadians  
through their life insurance pre-  
miums provide funds for invest-  
ments in a wide variety of public  
enterprises, such as new schools,  
highways, power plants, har-  
bours, homes and farms.

## LIBRARY CORNER

"Decorating Your Home," by Kay Peterson Parker and published by Chester R. Heck Inc., New York, is another non-fiction book which has recently been purchased by the Newmarket public library.

It is one of the ten books which make up the series, "The Garland Home-making Books." They are edited by Gladys Beckett Jones, director of the Garland School, Boston, with the aim of providing a practical guide to homemaking for successful family life.

"Decorating Your Home," fully illustrated by the author, explains the practical means by which satisfactory home interiors are developed. The basic principle of color and line, the arrangement and selection of furniture, and the organization of each room to achieve the most attractive and comfortable use of furniture and equipment already on hand are dealt with in a skillful and informative manner.

Here is expert advice which will help in the planning of a new home. Clearly and precisely written, this book is a practical guide to a professional understanding of interior decorating.

### McSHANE - SLATER

The bride's only attendant was her sister, Miss Ila Slater, who wore a floor-length gown of pink satin, and carried a bouquet of pink roses. The groom's attendant was Mr. Royce Slater, brother of the bride. Following the wedding, dinner was served at the bride's home. In the evening a reception was held in Denbigh community hall with about two hundred guests present.

### Encourage Charity

Lorraine is a six-year-old little-tale. She can, and does, tell tales about everyone she knows. There's nothing unnatural about spreading tales. The unhealthy aspect results because the tales are of a destructive nature. Not only her little playmates are discredited in her tales, but adults, teachers, neighbors and relatives receive more than their share of condemnation in her conversation.

Lorraine isn't actually responsible for this discourteous habit. She has learned that her dramatic stories receive more attention than just ordinary stories so she taints all her tales with badness, danger or horror. She is always perfectly good and the heroine of her own tales. While she is still young enough to be impressionable, Lorraine's attention should be redirected toward the good in others. She can be encouraged to be kind and helpful to others. It's time to build her faith in all that is good. Otherwise, she will grow into a mean, selfish, petty-thinking, scandal monger.

Adults fitting into that category are a true menace to society. They are still children, mentally. They use means to degrade others in an attempt to elevate their own standing. They are so busy spreading destructive criticism that they have no time to do anything constructive themselves. Besides, they hinder and discourage those who make a conscientious attempt to elevate society and to raise the standards of living.

The time to squelch these deterrents to progress toward a happier, more congenial and peaceful community is during childhood. Children can be trained to love and respect the right of others and cherish the resulting happiness.

If you are ever sad,  
There is one thing you can do,  
Just make somebody happy  
And you'll be happy too.

## Interesting Reading For Everyone

## Plan To Enlarge 'Aid' Parcel Volume

Newmarket — Speaking at a regular meeting of the Home and School Association on Tuesday night, Mrs. M. B. Seldon reviewed the progress of the Newmarket Aid-for-Britain campaign. "To date nearly 800 articles of food and 500 pieces of clothing have been contributed by the public school children of Newmarket. Those figures do not include the contributions made at the recent children's show."

Mrs. Seldon continued: "To promote a spirit of fellowship between Canada and Great Britain as well as to provide material assistance to the 300,000 families there who are desperately in need of help, the Ontario government has reorganized its Personal Parcel Plan under the leadership of the Hon. Russell T. Kelley."

"We are most fortunate to have Jack Luck as the Newmarket chairman for the general Ontario campaign is being based on Mr. Luck's literature and organization in Newmarket," she said. "At a recent meeting in Toronto, Mr. Luck was greatly praised for his methods of conducting the campaign."

"To date Ontario has sent 2,500 personal parcels of which Newmarket has been responsible for 25. The plan is to enlarge the total number to 300,000. "It has been arranged for all parcels to be sent by freight at one-third of the former cost. A central organization will be set up shortly in Newmarket where these parcels will be packed. Each parcel will contain the name, address, and a personal note from a contributor in Newmarket. Then these parcels will be forwarded to Toronto where in cartons containing eight to ten parcels, they will be freighted overseas and distributed by mail in Great Britain," she said.

## WON'T YOU HELP?

Several years ago Newmarket Cemetery Board donated a parcel of land for a veterans' plot, a last resting place for veterans whose families and friends wished to have them buried near their comrades of World War I. During World War II they increased the size of the plot and it now makes provision for more than 100 graves. In order to take full advantage of this splendid gesture we, the Newmarket Veterans' Association, have decided to erect a memorial as illustrated in this advertisement, as a symbol "Reverence and Remembrance" to the memory of our comrades who paid the supreme sacrifice, and to be for all time a place of "hallowed memories".

The foundation has been laid, the cenotaph is in the course of construction and will be unveiled on the third Sunday in June, 1948, "dedication day at Newmarket". The cost will be \$2,000 plus of which more than \$1,000 has been raised. May we bespeak the co-operation and support of all our friends and neighbors in this community? ### EARLY CHICKS"

"Fall eggs have always been the most profitable to produce, and fall eggs can be obtained only through purchase of early chicks," say market experts of Dominion Department of Agriculture. Not only are late summer and fall eggs highest in price, for all sizes; but the premium for big eggs is widest then. From August to December, 1947, the spread between A large and A pullets ranged between ten and 16 cents per dozen! That's worth shooting for!

Aim for that top-price, top-premium market. Start good chicks—Bray chicks—as early as possible. Full information cheerfully and promptly supplied.

## THE COMMON ROUND WAVING AND WEAVING

By ISABELLE INGLIS COLVILLE

### The Semi-Circle

When you see a semi-circle of cats, every tail waving rhythmically, seven pairs of eyes—green and eyes gold, and every eye fixed sternly on you—you realize the strength of will which inhabits those small bodies to which eyes and tails belong.

This semi-circle forms when I am preparing their food and their language at this time consists of a series of low growls intermingled with purrs.

Beauty, the mother of the other six, is part Persian—that part being aloof, stately and very beautiful, with her bronze fur, bright green eyes and fluffy ruff and tail. When the plates of food are set down the young fry make a mad dash for them but Beauty, with a detached air, stands unwinkingly in front of me until her plate is placed before her. She is willing to share it with her eldest son, Stripey, a magnificent young cat with a disposition so amiable that he allows the young cats all sorts of liberties.

But if the other kittens try to share Beauty's meal she simply abandons her plate and walks away, perching herself at the head of the family's elbow, kissing his ear and touching his shoulder to remind him that a bite from a hand is worth two on a plate.

Buzzy is Stripey's sister and the homeliest cat it has ever been my lot to see. One half of her face is black, the other yellow; one side of her whiskers is white, the other side has a white hair fore and aft and black ones in the middle. The latter don't show so she looks all one-sided. Her purr is like a small steam engine, hence her name.

Bundles of Mischief  
The quadruplets—Beaver, Biddy, Betsy and Blondie, are just so many bundles of mischief and one never knows just what will happen when they are around. The other night we heard small wails and infant screams. "What on earth's that?" queried the other half of the family. "It's Biddy," I told him resignedly. "How do you know where she is?" "I know her voice," I told him, "but where she may be is another matter." And so the search began, aided or hindered by all the other members of the group. Like the man in Gilbert and Sullivan's Yeomen of the Guard, "we hunted high, we hunted low," in the cellar, outside and upstairs.

At last Beauty, with a disdain-

ful glance at our worried faces, stalked ahead of us up the stairs and sat down in front of the door of a small room not used in winter. Sure enough, there was the lost one, wailing and shivering. Her mother gave her a scornful look, a slight swipe with a capable paw and then she preceded us down the stairs while Biddy came behind.

The other evening we had drawn our chairs up close to the fire. It was 12 degrees below zero and we were peacefully reading while some of the cats dozed in the warmth and others played hide-and-seek in the hall. Cries of distress came to us. "Who is in trouble now?" asked Archie. "I've no idea but I'll count noses," said I and I called the roll. In came Beauty, Stripey, Biddy, Betsy and Beaver. "It's Buzzy," I told him, "and there she is." For looking up at a window in the living-room I saw Buzzy. She had learned that if she came to the lighted window she could make us hear. So now, instead of coming to the kitchen door as the kittens do in the day time, they come to the living-room window and make their presence known. Don't tell me that cats don't reason—I've reason to know they do.

We spent an evening not long ago with Mr. and Mrs. Stanley Jones and we had the pleasure of meeting Miss Sarah Jones. She introduced us to the weaving which she is teaching to groups of Women's Institute members.

Now my acquaintance with weaving was limited strictly to what I had read and I always envisaged a huge spinning wheel with someone walking back and forth to do whatever you have to do to a spinning wheel. Miss Jones showed me small weaving outfits, capable of being carried about, and also the products of these machines. What a splendid

## Homemakers' Exchange

These are days when good, plain food is appreciated as never before. Make the most of it. Have friends in but keep your meals thrifty by serving a heavy stew. Top the stew with tender, fluffy dumplings. They help stretch the meat and are a real feast. Serve them with braised short ribs or stewing chicken as well.

Stew is so nourishing that hard rolls and a green salad will complete the menu.

### OXTAIL STEW WITH PARSLEY DUMPLINGS

2½ to 3 lbs. oxtail cut in 1½" lengths  
4 tbs. fat 1½ tsp. celery salt  
2½ cups water 4 whole cloves  
1 cup sliced onion 2 bay leaves  
1 tbs. salt  
2½ cups canned tomatoes  
2 cups sliced carrots  
1 tbs. lemon juice  
¼ cup diced potato 1 tsp. sugar  
1 tsp. Worcestershire sauce  
12 small, whole onions

Dip oxtail pieces in flour seasoned with salt and pepper. Brown in hot fat; add water, onions, tomatoes, lemon juice and other seasonings and sauce and sugar. Cover. Simmer 3 hours. Add vegetables. Simmer ½ hour or until tender. Drop in parsley dumplings. Dip spoon in hot meat stock each time before scooping up batter. Cover tightly. Steam 12 minutes without lifting cover. Serves eight.

Parsley dumplings: Sift 2 cups flour with 1½ tsp. salt and 4 tsp. baking powder. Combine ½ cup finely chopped parsley, 1½ cups milk and ¼ cup melted fat. Add to dry ingredients. Stir just until blended.

### VEAL STEW WITH NOODLES

1½ lbs. veal breast meat, cubed  
2 oz. salt pork 2 cups water  
2 tsp. salt 2 tbs. flour  
1 cup cut celery  
1½ cups noodles

Cut salt pork in tiny pieces and fry in deep frying pan or pot roast kettle until crisp and brown. Lightly flour veal and brown slowly in salt pork fat. Add salt and water. Cover and simmer very slowly for 1½ hrs. Add celery and noodles and continue cooking until noodles are tender. To serve, place noodles in centre of platter and surround with stew. Serves four to six.

old craft is being revived and even taught in some of our schools. Lovely patterns and styles from many lands are available and an old-new fascinating work and means of income is coming into its own. Miss Jones also showed us the leather work she is teaching. The whole, as we listened to Miss Jones' able explanation, became a pattern of what is being done to introduce crafts and arts to women and in schools. It may, in a child, form a pattern of future work. We live and if we are not blind and deaf to what is going on about us, we learn.

THIS IS AN  
**EMERGENCY**  
...let's treat it  
as such!

CANADA is heavily "in the red" in present trading with the U.S. dollar area. In our total trade with the world we are in a good position but not in that part which is done with U.S. dollar countries. Other countries with whom we do business cannot pay us in full, either in cash or in goods, for the things they buy from us.

This situation is made more serious than ever before because so many countries, our regular customers, have not recovered from the war. It may be some time yet before they get on their feet sufficiently to help put things right. Meantime, we must find ways and means of balancing our own books and reducing our U.S. dollar deficit.

There are two things we can do at the moment... cut down unnecessary purchases from the U.S. dollar area and increase our production of goods that can be sold to those countries to balance accounts. It's an emergency and should be treated as such.

TO KEEP OUR INDUSTRIES HUMMING... OUR LIVING STANDARD

HIGH, WE NEED PETROLEUM,  
COAL, COTTON, STEEL  
AND SIMILAR ESSENTIAL THINGS

WE CAN PAY FOR THESE THINGS IF WE CURTAIL

YOU AS A CANADIAN CAN HELP

1. Do not order goods by mail from other countries... do not buy goods to bring home when you travel outside Canada. See also Item 2.
2. If you feel some purchase is absolutely essential, see your Collector of Customs and Excise beforehand, to learn whether the item is prohibited.
3. Look for alternatives or substitutes for the items which are temporarily prohibited.
4. If certain goods seem to be in short supply, do not overlook the possibility that it is seasonal, or merely a local condition, or perhaps brought about by entirely unnecessary buying.
5. Be sure to obtain the Tariff Item Number from your Collector of Customs and Excise before pursuing any inquiry. Quote this number in all correspondence.
6. IF WE TACKLE THIS PROBLEM IN THE SAME SPIRIT OF CO-OPERATION DEMONSTRATED DURING THE WAR YEARS IT CAN BE SOLVED WITH LONG-TERM BENEFIT TO EVERY CANADIAN.

## Hi-Lights of N.H.S.

Ah yes, Friday afternoon we had our tea dance, minus the tea of course, with the admission one tin of canned goods, clothing or 15 cents. This, of course, was not for the benefit of the school but for the people of war-torn Europe. The dance was quite a success as far as the admission was concerned. We collected 128 tins of food and \$30.26 in cash. Owing to the shortage of boys at this dance and an overflow of girls the party was kept under control by girl's tag dances. The boys must have felt like gallant knights being asked by so many girls to dance. As long as everyone had a good time, who cares how it was done.

Congratulations are in order for the boys' basketball team from the school. Last Tuesday night at a double-header game at the school, the senior team defeated Pickering seniors 54-7. The junior team also played Pickering and again the school team came out on top with the score of 42-12. The school next door will have to do a little hard practising between now and the next game if they expect to win.

Last night the team went to St. Andrew's, and I'm sorry to say that they lost the game 49-34.

Let's see what's cooking in the hockey department. Oh yes, on January 15 at Richmond Hill, the school's team played a close game of hockey but took an edge on Richmond Hill, 4-2. On January 22 Newmarket again took a victory of 4-1 against Pickering College. The boys are doing O.K., eh what? This hockey is an age group series. To be eligible, a player must be under 17, Sept. 1, 1947.

Last Thursday morning, 12A was responsible for the assembly. Ken Budd played, or tried to play, the Blue Danube Waltz. The great show, "It Pays to be Bright," came on the air, sponsored by Wish Wash Soap. Our M.C., Ray Leadbetter, and his three intelligent guests, Marg King, Mary Bothwell and Jean Webster, brought many laughs from the students and teachers. Singing commercials are all the rage today and trust 12A to have this too. This part was thoroughly enjoyed.

A great orchestra, consisting of we don't know what, brought shrieks of laughter from the audience. With Ken Budd leading the great group of musicians, the skit was really terrific. Their number was "She's Too

## Gapcos Try Again, Lose To Flyers 4-2

Merv. Broughton, Johnny Campbell and George Haskett had better move their junior hockey franchise over to Aurora arena. After taking a lacing from the Aurora Flyers on their home ice, Newmarket Gapcos bounced back on Aurora ice to turn in one of their best efforts of the year but Aurora took a 4-2 win. The Gapcos, resplendent in their new sweaters, kept punching all the way and the 500 fans who braved sub-zero weather enjoyed the game.

Putting on pressure from the start, the Newmarket lads surprised the Aurora supporters by taking a 2-0 lead. Walter Davis, former Aurora player, struck back at his team mates of a few days ago by sending the opener past Eric Smith at 0.45. Ken Broughton scored the second goal at 2:10 before Coach Capel could get his forces organized. Blondie Davis and Bill McGhee Doolittle joined the fray. Referee Red Woods thumbed the trio to the sidelines. When Doolittle returned to the ice with McGhee they made their presence felt as they broke the ice for Aurora on a nice passing play. Thoms drew a penalty at 9:12 and Boychhoff joined him at 10:25.

The second period saw the Flyers regain their form, and Bill Attridge tied the score at 32:07 as he converted Wilkinson's pass. Tommy Brodie gave Aurora the lead three minutes later as he took Nigh's pass. Mulholland saved Newmarket on many occasions in this period and Smith, while not handling as many drives, was called on to save spectacularly several times. Simmons and Brinkos were the

Fat For Me." Barb Prichard favored us with a snappy version of "Sunny Side of the Street," which was enjoyed immensely. Katherine Ewing's Fut Nudge (Nut Fudge) made everyone's mouth water. That is, if it could be understood.

Here is the roster for the two girls' basketball teams: senior team, Pat Duncan, Helen Epworth, Pearl Gunn, Beth King, Mary Ellen McInnes, Audrey Rowland, Marilyn Spear, Jean Squires and Jean Webster; junior team, Norma Balsdon, Barbara Bonnell, Pauline Bovair, Connie Fines, Sally Hill, Barbara Pritchard, Marlene Rye, Helen Shelestowski and Doreen Smith. Our first game will be on February 4, when Newmarket tilts with Richmond Hill.

sinners in this stanza. Ron Simmons scored the lone goal of the last period in a three-play attack with Nigh and Brodie. Attridge and Boychhoff were awarded minor penalties. Play was fairly even throughout. With Jack Andrews on the sick list, Bill Boychhoff was moved back to defence, and he looked mighty good, mightily good in his old rearguard post. Norm Nigh, promoted to the first-string trio with Ron Simmons and Tommy Brodie, teamed up well and did all that could be expected. The "Sweet William" line of Attridge-Wilkinson-McGhee turned in one of their best games of the year.

For Newmarket, Walt Davis, Ken Broughton, Spry and Blondie Davis were prominent. Another former Aurora junior, Norm Rank, was on the Gapcos' roster and made a good impression in the third period.

## Square 11-1 Win Ends In Shoving Bout

By Geo. Haskett Jr. Victoria Square "Redwings" blew into town Tuesday and trampled heavily upon the necks of our junior Gapco pals, making the score-board rattle to the tune of 11 goals. Our Gapco gang had to settle for a single marker.

The Redwings stole the show completely. For the most part it was a scramble hockey. The Gapco division lacked system up front, failing to show anything in the way of a scoring punch. The invaders ran in three in the first, a like number in the middle frame, and hit the jack pot with five in the final 20.

Jack Davis saved the Gapcos from the whitewash treatment with his scoring thrust after seven minutes of the second frame. Bob "B.A." Walker and Kenzie Thoms were credited with the assists.

Defenceman Mac Clement was the chief villain of the affair so far as our gang was concerned, chalking up four. "Rabbit" Mabbitt and Keith Jewett were right in his shadow with a pair of scoring credits. The game wound up in a bit of a do, as both teams got into a shoving duel. Some punches were thrown but no damage done, and no penalties resulted as the game had already rolled to a conclusion.

## Hockey Briefs

By GEO. HASKETT, JR.

With the six-team intermediate schedule past the half way mark, a little peek at the situation might not be amiss. Penetang "Canadiens" appear, at this point, to be the strongest team in the circuit. They are rolling along at a torrid clip, boasting an eight-game winning streak. Barrie Colts, earlier considered by those in the know as one of the weak sisters, have shown surprising strength. This can be accounted for by the return of the Bowen Brothers, Don and Ab. This duo had been out with Orillia Narves during the exhibition series but were unable to obtain a release from Barrie where they reside to play with the Narves. Crillia thus lost out on a couple of stars, and this along with coaching troubles, has forced the latter club down to fourth place in the standing.

Collingwood Legion "Shipbuilders," now in third place, apparently also are into difficulties from the coaching angle. The rumor mill was in full swing on their visit here last Thursday. Coach Norm Cadesky was not with the team and the story was that he had retired to the home fireside for the winter. Hoffman's follow Orillia in the ratings. With their win Friday, Hoffman's helped themselves out of the league cellar. Their record at present shows two wins, five losses, not too healthy you will agree. Coach Bill Toms, however, has the boys showing more finesse around the nets. They have some tough opposition to wind up their schedule with a trip to Barrie on Wednesday against the high flying Colts and Thursday the league leading Penetang Canadiens will be at our doorstep. The final game is the following Thursday when Hoffman's will be at home to the Barrie Colts.

In the league cellar are the Gravenhurst Indians. They are headed for the intermediate B playoffs, thus in all probability will get a bye into the first round of this series. There are no other teams of this category in the local grouping. Gravenhurst fans expected much better things of their crew, but up to the present the Indians have done very little scalping. One victory and a tie is their fate at the moment.

A recap shows, Barrie and Orillia will fight it out for the Senior B group title, Newmarket Hoffman, Collingwood and Penetang for the intermediate A with Gravenhurst taking the intermediate B. This set-up, of course, is subject to the usual changes, which go, we are told, to add spice and stuff to the winter pastime.

The Junior picture shows Aurora Flyers and the Square, Victoria that is, matching strides atop the group standing. While at the other end, clinched in a deadlock, and fighting mightily desperately to shake each other into the cellar, are our own Gapcos and Unionville Lions. Both Newmarket and Unionville have one victory in seven tries. Gapcos, new sweaters and all, put up a good fight last Thursday in Aurora when they dropped a 4-2 decision to the Flyers. Walt Davis, who graced the Aurora line-up last winter, took up duty in this tilt with the Gapco boys. Now — here it is folks — Davis went out on the Aurora cushion Thursday and in less than a minute popped in a goal for the canaltown against his old buddies. A cheer and one cheer more for you, Mr. Davis. That's certainly a fine way to start off with your new club. May you do it often.

Newmarket Juveniles still very much the hottest team in town have been bopping off their opposition with the utmost regularity. Fred Hall and Manager Ed. Gibson have their gang taking each game as it comes along, and taking them by healthy margins at that. Just an indication of some of the scoring punch the Lions pack, they won over Beeton Juniors recently by a 6-4 count. Beeton comes back to the Cedar Street gathering house to try to get revenge Monday.

## On The Ski Trails

The executive of the Newmarket Ski Club announces that an agreement has been reached with the Varsity Ski Club of the University of Toronto. Members of the Varsity Club showing their badges may ski on Newmarket trails and Newmarket Ski Club members may ski on Varsity trails. All trails will be patrolled and non-members of either club must pay a trail fee of 25 cents per day.

The trip to the Blue Mountains at Collingwood was a success so the club plans to sponsor another trip there on February 8. Orla Larsen and Barney Westcott started a ski class in the parallel method of skiing last

Sunday. They will conduct it next Sunday between 2 p.m. and 3 p.m. There have been several accidents on the trails this year so there is going to be a stretcher and a ski patrol emergency service.

The St. John's Ambulance organization will train ski patrol members in first aid. Any member of the club interested in taking the first aid course should get in touch with the executive.

## Hoffman's Scalp Indians 5-3

By GEORGE HASKETT, JR.

The word is that Hoffman's are out of the cellar. Hoffman's sprang a surprise on their hockey clientele Friday night with a rousing 5-3 win over Gravenhurst Indians. What should make the fans all the more happy is that they did it the hard way—they beat Gravenhurst on their own ice.

Don't think they are out of the woods by any means. They are not, for three tough games are ahead. They have two encounters with the fast-charging Barrie Colts, one away and one at home. Up for decision tonight at Gunner's Gardens is a tilt with the league-leading Penetang Canadians. This should be the game of the year. Hoffmans can sell themselves to their fans with a couple of victories.

On Friday night, Hoffman put on an almost perfect defensive show. They weren't half bad on the attack either. Frankie Carr was called upon to make 32 saves. White in the opposite end made 20 stops. "Whitey" Bone came up with his best game of the year. He got a goal and was on the assisting end of two others. Besides all this work up on the attack his blue-line business didn't suffer.

## LOSE AT BARRIE

Hoffman's absorbed another road loss last night at Barrie when the second-place Barrie "Colts" took a 3-4 win. For two periods, Hoffman's were every bit as good as the Colts, the middle frame closing on a 4-4 draw. Then, the pressure fell by the wayside while the Colts charged through for five goals. "Jing" Groves and Stan Gibbons stole the scoring spotlight with a pair each. Bill Johnston and Cliff Gunn saluted for the others. Don Smith was prominent on the score sheet with a pair of assisting credits.

The Indians came up with the lone scoring thrust of the first frame. Hoffman pressed from the outset in the second. After three minutes, "Jing" Groves set the stage for a new game, slashing the rubber into the enemy citadel from close in. Groves has been absent from the line-up for a couple of games because of an injury suffered at Midland. penalty, got back on the ice in time to put Hoffmans into the lead for the first time. Harvey Gibney made it 3-1 with Myles Melniss taking the bows for an assist, with a minute to go in the middle frame.

Both teams came up with a pair in the final period. "Whitey" Bone and "Fink" Tunstead were on the shooting end for our side. Bob Cauley, a newcomer to the ranks, and Harry Caradonna provided the assists. Pelsura and LaForce beat Frankie Carr on behalf of the men of Muskoka. All and all, coach Bill Thoms was pleased with the display put up by his hopefuls.

## ON THE ALLEYS

Missed out on a few clubs last week. Going back a week, the Vorchione team in the Hoffman league jumped into first place at Bowlaway by taking four points from the Sheet Metal squad while their arch rivals, the Machine Shop, dropped three points to the Press Shop. Standing now is: Vorchione, 27, Machine Shop 25, Press Shop 19, and Sheet Metal nine. High bowler: R. LeShien, 297 high single. Three game highs, W. Simmerson 573, F. Daniels 569, A. Daniels 553 and Don Brown 553.

Two top bowlers with the Thursday Night girls week before last were Norma Peel with a 523 total and Myrtle Dunn with 519.

In the men's town league at Smith's, recent high man was I. Day with 189, 266, 240 for 695. W. Dunn came close with 188, 220, 285 for 693. W. Newton 175, 234, 276 for 685. A. Deaves 207, 229, 221 for 657. R. Wilson 199, 239, 216 for 654. L. Lond 183, 192, 266 for 641. High single men were E. Gould with 311 and J. Smith with 288.

Up to date again, Revill's team in the Davis Leather men's league is still on top but is losing ground each week. Andy Cullen was good and high with a 736 total. B. McHale took 699 and L. Wright 643.

In the Mount Albert league, Tigers are still on top with 49 points in 33 games and second to them are the Excelsiors with 43 in 33 games. Here is the most recent dope on who's doing the bowling. Ladies: high average, Lola Campbell with 147. High single flat, Mina Stokes 271. High three games flat, Dorothy Harper, 602. High three with handicap, Mina Stokes 292. High three games with handicap, Mrs. E. Harmon, 647.

## Collingwood Triumphs Over Hoffman's

By GEORGE HASKETT, JR.

After holding the strong Collingwood Shipbuilders to a 1-1 draw for two periods Thursday, the Hoffman sextet wilted and the visiting puckmen went through for three goals in the last period. Al Kirby got two and Bib Burns one. Collingwood broke into the lead after four minutes of action, Kirby getting his first tally. Then the Shipbuilders clicked for two quickies. Kirby got his second at 13:10 and Burns followed quick as a wink from the face-off, five seconds later, to shoot in the fourth.

Right winger Don Smith set the stage for the lone Hoffman counter as he lugged the puck up into firing range and laid a perfect pass over to "Hot Shot" Johnston at the three-minute mark in the first period. "Toad" White shot in the equalizer for the invaders at 8:40. The second session was scoreless. Though "our gang" had enough chances to break into the lead they couldn't get the disc into the net.

The Hoffman defense corps suffered a decided loss early in the game when "Dynamite" Joe Peat suffered a badly injured nose. This will sideline Joe for a week or two, just when we were ready to spring a 1949 contract on him for signature.

Manager "Ceegars" McDonald gets his hope on the contest at the York County hospital via the grapevine. 'Tis said he will be missing from the scene for a week or two.

Newmarket — Ted Adams is opening his new barber shop at the old Loblaw site today, after having moved from his old shop on the west side of Main St. yesterday. Features of the new shop are the fluorescent lights. There are 26 fixtures in the shop and the adjoining pool room.

## DOWN THE CENTRE

With AB HULSE

Hockey fans have an opportunity tonight of catching a glimpse of one of the surprise teams of the year when Penetang Canadians clash with Hoffman Machinery at Newmarket. Canadians are currently group leaders and except for Barrie, have made more progress than any team in the district. Here are the stout fellows responsible for the upsurge:

Ted Brodeur, who played junior B with Midland against Aurora back in '40 and has been with Penetang intermediates most years since, handles the goal chore for Jack Rutherford, veteran Midland mentor, who is coaching the team. Fat Swales, ex-Midland-Guelph junior who has played on the Pacific coast, and Dubby Dubau, a homebrew not far out of junior ranks, generally start on defence. Bev Scott, veteran Barrie-Midland player who has played on at least three championship O.H.A. teams in different series, and Arnold Kiskoek, one of the younger contributors from the Midland end, along with Fred Scott, also double in the bump and bash section. Kiskoek plays up front. Sib Brodeur, the sage of Port Nicholl, centres the first line and he's now in his 21st of intermediate hockey. Brodeur is one of the most unusual athletes it's been our pleasure to see, playing clean, tricky hockey, always in condition and tireless in his efforts. Mummy Moran, who played junior in Penetang and gained some valuable hockey experience at Camp Borden, and Ken Melniss, another former Penetang junior, hold down the wing positions. Lefty St. Amant, one of Penetang's best all-round athletes, and the two Stewart brothers, Fred and Tommy, are on what is fast becoming the punch line of the circuit. Tommy Stewart, of course, formerly played with the camp. Fred is a graduate from junior ranks. Dlek St. Amant, brother of "Lefty", who has had quite a bit of service with Midland teams, also works in with this line as needed to make it an all-brother affair. Bruce Holt, veteran winger of many good Midland teams, has recently joined the club and doesn't weaken it a bit. Doubtless one or two oldsters will join the team before the season is over, once they make up their minds whether to play with Coldwater or Penetang, Midland having no club of their own this year except from junior down. If Midland had iced a team, it would have been graded as senior B. The hockey moguls in the north figured they didn't have a team capable of competing with either Barrie or Orillia, but already they have defeated both teams. Penetang is now rated as A, though perhaps the A clubs probably wish they stayed in B. If the club wants to stay B with past president George Dudley of the O.H.A. located in Midland, they can probably do so. There aren't many B clubs who can compete with them. If moved up to A a nice four-club play-off would be presented.

## BADMINTON LEAGUE

The Newmarket Badminton Club battled the Richmond Hill club to a 4-4 tie in a regular league fixture last week. Jack Hamilton paired with Jack Peppiatt and Don Morrison paired with Chuck McLeod to win the two men's doubles matches 15-4 and 15-11. Other winning combinations for Newmarket were Helen Coveney and Jack Hamilton, and Joyce Bothwell and Jack Peppiatt in the mixed doubles.

Richmond Hill presented strong teams in the women's doubles taking both contests together with the other two mixed doubles matches. The North York Badminton league has been recognized. Its executive is: pres., D. Day, Richmond Hill; vice-pres., Jack Peppiatt, Newmarket; sec-treas., Frank Wims, Aurora.

## Juveniles Swamp Keswick 11-1

By GEORGE HASKETT, JR.

What our junior pals failed to do Tuesday evening, the Lions juveniles did. The Lions brushed up on their scoring at the expense of Keswick "White Roses" to the tune of 11-1.

The big feature of the session was the emergence of Fred Hall's second line as a scoring unit. This threesome, Grant Firth at centre, and Bill Kirbyson and Jim Rutledge on the wings, unleashed a terrific scoring bee accounting for seven tallies. Bill Kirbyson lead with four. Grant Firth had three and earned an assist as well. Jim Rutledge, while not on the actual end, was going great guns all night to chalk up five assisting efforts.

Don Duncan had himself a big night. Dunc. popped in three goals, to lead his line-mates, Ortie Thoms and Don Gibson, who helped the cause with a goal and an assist. Albert Smith of the invaders kept Martin Hayes from getting a shut-out when his drive picked the corner early in the third.

This was the seventh straight win for the Hall-Gibson sextet. They have one game to go to complete their schedule. Monday evening they face a real test of strength against Beeton Juniors in an exhibition tilt at Gunner's Gardens. Play-off time is not far away, says Manager Ed. Gibson, and his hopefuls look headed for big doings.

Newmarket: goal, M. Hayes; def., D. Wilkins, G. Zogolo; centre, L. Thoms; wings, D. Duncan, D. Gibson; alts., J. Rutledge, W. Kirbyson, G. Firth, D. Couch, W. Stewart, R. Draper.

Keswick: goal, E. Ensign; def., Jeffreys, R. Atchison; centre, A. Smith; wings, B. Folkeard, I. Rye; alts., L. Waller, H. Allen, A. Lockie.

## CHANGE CAPTAINS

A. W. "Shorty" Heard has been elected captain of the cribbage team of Branch 385, Canadian Legion, Aurora. He succeeds Orval Heath. Aurora is out to defend their laurels and retain the Phelps' trophy won last year. A six-club Legion league is functioning this year and proving very popular among the branches.

## A.H.S. Hoop Squads Score Two Victories

Aurora high school basketball squads scored impressive wins over Pickering College in Newmarket on Monday. Led by Jim McDonalds and Keith Kyle, the senior quintet took a 44-14 verdict over Pickering seniors, while with Tracy, Barrager, and Lloyd showing the way, the juniors romped to a 43-5 verdict. It was the first win for Aurora seniors, the local boys having dropped a 16-8 verdict at home to Richmond Hill high. The juniors scored their second straight win, having nosed out the Hill minors 11-10 last time out.

A.H.S. Seniors: guards, Gerry Barker, Bill Linton, Gordon Lee; forwards, Keith Kyle, Ian Scott, Jim McDonald, K. Atchinson and B. Doherty.

A.H.S. Juniors: guards, Dave Crysdale, J. Topper, Jim Stocks, H. Stone; forwards, Tracy Barrager, Mac Urquhart, John King, Red Lloyd, R. Bull, D. Ross.

## Flyers Take Unionville By 9-5 Score

In a rough, tough, knock-down battle on Tuesday night, Flyers hopped off Unionville 9-5 in the Markham township metropolis. Minus some of their so-called stars, and improved by Cy. Allen's tuition, Unionville made it mighty close for two periods and in fact at one stage, had the score tied. The rugged play upset the Aurora style and passing plays, but finally rebounded to the Flyers' advantage as costly penalties allowed Aurora to safely increase their lead. While he didn't hand out any major penalties, Referee Woods might well have done so. As it was Bill Boychoff (2), Bill Wilkinson and Mike Brinkos all engaged in fist-cuffs and along with their opponents were confined to the brig. Mr. "Hardrock" Boychoff demonstrated his ability with the dukes and he's not likely to be plagued again by the Unionville boys. As usual he turned in a Grade A puck performance.

Ron Simmons and Bill McGhee each notched two tallies, while Bill Patrick, Tom "Goal-a-Game" Brodie, Bill Boychoff, Bill Attridge and Bill Wilkinson each scored timely goals. With four goals to their credit, the "Sweet William" line again demonstrated they are about ready to go to town. Summerville in the Unionville nets had a good night, recovering from his jittery performance against Stouffville. Local boys Buddy Watson and Nick Proencko were just about the best trotted out by Coach Allen.

The two teams clash again tonight and a good game should result. Those two high-scoring games by the Square against the Unionville team are no criterion of Unionville's latent power. Both sextets will likely have a few scores to settle from Tuesday's fray.

## 3-2 WIN

Bradford juveniles shaded Aurora 3-2 in a fast O.M.H.A. contest at Aurora arena on Monday night.
